NEWSLETTER Nº 3
July 2018

Dear subscriber of Baqua project:

We are very happy to keep you informed of the developments of our project and future activities.

Currently, we are developing the second and third generations:

- The second generation of fibre has been sent to the partners and the second generations of banana sleeve, fish feed bags, housing, mounting sleeves and burner covers are being manufactured.
- The first fish diets were developed with the first generation of pulp.
- The coordinating beneficiary is developing the third generation of fibre and pulp.

Further information of our progress in following newsletters. See you!
