NEWSLETTER Nº 2
December 2017

Dear subscriber of Baqua project:

We are very happy to keep you informed of the developments of our project and future activities.

Currently, we are in the midterm of the project and we have already obtained the first results:

- The first generation of fibre has been sent to the partners and the first generations of banana sleeve, fish feed bags, housing, mounting sleeves and burner covers were manufactured.
- The first fish diets are being developed with the first generation of pulp.

This newsletter will help us keep you updated on our progress!
